**RE: ANNOUNCEMENT OF MINIMUM PRICES FOR CLASSES 4a and 4b MARKET MILK**

TO ALL INTERESTED PARTIES:

On the reverse side of this page are the minimum prices for Classes 4a and 4b market milk for October 2003. All prices are f.o.b. milk processing plant. As provided in the Stabilization and Marketing Plans for Market Milk (Plans), milk handlers shall pay producers the minimum prices for market milk components sold or used for Classes 4a and 4b purposes as specified on the reverse side of this page.

If market milk components are purchased f.o.b. producer's dairy location, haul deductions may be made as provided in the Plans.

Equivalent hundredweight prices shown in the right-hand column are based upon milk that is 3.5% fat and 8.7% solids-not-fat (SNF). These classified minimum prices that processors must pay for milk received from producers are calculated based upon mathematical formulas. The formulas are established and amended as needed through a public hearing process. These formulas include commercial prices for manufactured dairy products (butter, Cheddar cheese and nonfat dry milk). These commercial prices are also listed on the reverse side of this page.

This price information is also available on a recorded message. Please call (800) 503-3490 to hear the recording. If you are calling from Sacramento, or from outside of California, please call (916) 442-MILK. You can also access this information over the Internet on the Department's website. The address is <http://www.cdfa.ca.gov/dairy>. From the Homepage, select [Dairy Prices] from the main menu, then select [Minimum Class Price Letters]. Once there, be sure to make a bookmark for future reference.
